Adoption

story

fascinating

... a painting by
Lucille Hollocher

Sometimes a writer looks too far afield in search of a good, heart-warming story. Like me for instance.

After all the wandering around I have done to find subjects for my column, I wake up one morning to realize that I only had to look across the breakfast table at my wife (she also eats other meals with me) and discover such an article.

Patricia serves the people of Texas as Supervisor of the Regional Adoption Unit of the Department of Public Welfare.

Public Welfare takes a beating from the "anti's", but Patricia loves her job and feels this is one (of many) areas where the Department provides aid to both the adoptable children as well as the taxpayers of the State.

"Our unit works with those children who are difficult to place," she says. "We have school-age Mexican-American and Black children and are constantly on the search for homes where they will be loved and provided the security of family life."

At the present time the Adoption Unit carries a list of approximately 30 children available to parents who wish to offer them warmth, affection and stability of home. "Unfortunately, most persons desiring to adopt want young babies," Mrs. Lawrence said.

"But these school-age and older children need homes and love even more than tiny babies, if that is possible," she points out.

Children with whom the adoption unit works are now in Foster Homes, with the most of these being in Bexar County. Mrs. Marie Musson, Program Director for both Foster Care and Adoption, explains the Foster Home program:

"Before a child can become available for adoption through our unit they first must be declared wards of the court by the County Judge of county in which they live. Once this is accomplished, these children are placed in Foster Homes provided through the efforts of the respective counties. And then we begin working toward placing them in homes."

There are no Foster Care homes in Medina County, but the State Department hopes to be able to negotiate with County Judge Jerome Decker and the Commissioners Court toward providing at least one or two in the county, the program director explained.

To establish a Foster Home there first must be families willing to take children into their homes for short periods of times until they can be placed for adoption. The county agrees to pay these families so much per child while they are there. Once they are adopted, they are no longer the responsibility of the county.

Mrs. Lawrence points out that there is a great need for families who wish to adopt school-age or older Mexican-American or Black children. "We would love to hear from all persons who have questions about our program. If they will just call us at

Silver lining

County payrolls continue to boost area economy

By John D. Seater
A lining of silver valued in excess of \$10 million lies inside Medina County's dark but dry agricultural cloud.

It's a lining worth much more to the county than agricultural loss predicted for this parched land. And, like many other silver linings in dark clouds, many Medina Countians simply can't see it through their gloom.

Strangely enough, a portion of this 10 million-dollar-plus lining is woven from the silver threads of agriculture itself. And these threads come from Medina County's irrigated farm land.

It's a farm land that produces white corn, grain sorghum, vegetables, watermelons, peanuts, cotton and other crops.

Admittedly, agricultural income from Medina County's irrigated crop land will not equal the dry land grain sorghum, small grains, corn and broom corn production,

But it does mean an economic shot in the arm of more than \$6 million.

And then there are pay-

Trial jury called

An estimated 15 civil cases were cleared from the district court calendar Monday with Judge Ross E. Doughty of Uvalde presiding, according to District Court Clerk Francis Bohl.

Bohl said a panel of 65 trial jurors has been called for 10 a. m. Monday when it is anticipated that the civil docket will be called.

The clerk said he anticipates that the criminal docket will be called for the district court session scheduled Monday, June 21.

rolls.

Payrolls like Gary Aircraft's estimated wage payments for this year of \$1.7 million.

Payrolls like Hondo Independent School District's \$778,000 contribution to the Hondo area's economy.

And more payrolls in the Hondo area, too.

Like \$700,000 at Universal Rundle, \$114,000 from Medina Memorial Hospital, an estimated \$55,000 from the new radar station soon to begin operating, and another estimated \$50,000 from the Ground Control Approach (GSA) installation at the air base.

The Anvil Herald itself has an annual payroll in excess of \$55,000, and then there are untold thousands of dollars in payrolls fed back into our economy by scores of "small" businesses in the Hondo area.

Before construction was completed on the D'Hanis test track, its annual payroll was estimated at \$420,000.

In addition, D'Hanis furnishes payrolls for the area from its own school system, from D'Hanis Tile, and from its own small businesses.

There are other payrolls

throughout the county, too that help bolster our economy; payrolls at Devine, Castroville, LaCoste and Yancey.

So while the drought has dealt Medina County a sev-

ere financial blow, there still remains a substantial influx of money into its economy.

That dark cloud does have a silver lining.

She huffed, puffed and B l e w!

Museum sets meet on Monday

Four directors will be elected to fill terms of the Medina County Museum, Inc., at an 8 p. m. Monday meeting in the Medina Electric Cooperative building.

This is an open membership meeting and all members are urged to attend and hear plans for putting the Museum into operation.

and the County Program Building Committee, the workshop will be held on these two nights in the Audio Visual room at Hondo High School.

"This workshop will prove beneficial to any person" said Rene Aelvoet, Chamber of Commerce president and chairman of the Program Building Committee.

And the program for the two nights bear him out.

On Monday night, June 28, the program includes: Alan Reichardt, Area Extension Farm Management Specialist from Weslaco; Inventory of Assets and Wealth; Tom Prater, State Extension Farm Management Specialist from College Station; Highlights of Estate Planning; Woodrow Eads, CPA from Knippa; Calculating Taxes Inheritance and Federal Estate Taxes (with examples

and working problems); and a question and answer session with the above three on a

Sabinal father killed

A Sabinal man was killed Tuesday night when the pickup truck he was driving left old US 90, went through a fence and hit some trees.

Dead on arrival at Wilford Hall Hospital in San Antonio was David R. Bailey, 42. He was employed by the D'Hanis test track as a test driver.

The DPS said Bailey was headed west about 7 p. m. on old US 90 when his pickup truck left the road.

Letters to the editor

Longtime resident says; 'Hondo schools are best'

Dear Sir:

Just to get in the act—not only about the school situation but Hondo in general.

To set the record straight I was born in Hondo, graduated from Hondo High School and have worked here for thirty-eight years.

In regards to the school controversy I want to say I know of no school of this size anywhere that compares to Hondo High School. When I attended Hondo High School, we too submitted a petition for tennis courts or some such thing. We felt strongly about girls not having more athletics but as I have grown older—and mellowed, I hope, I realize how immature we were.

To even hint that Mr. J.G. Barry has not given everything within his power to make Hondo High School the very best is unbelievable. Just look around, visit other schools and I know you will have to admit ours is beyond comparison. In my opinion we have been very fortunate to have had Mr. Barry as head of our school system.

One other thing that I would like to make clear to all those who are too young to remember or too new in Hondo to know is the fact that people in Hondo have always worked together when necessary.

Recently I heard the remark that if Museum Day had done

nothing else it had gotten the people of Hondo to work together. They added they did not think they would ever see this.

For their information I want to recall the days of Medina County Fairs when everyone worked together for months from all over the county.

Further, during the times our town has been flooded (believe it or not) everyone worked hard and long.

Those of you who think you know Hondo and Hondo people had better look at yourselves hard and long before sounding off.

Sincerely,
Mary Ruth Cameron

Survey reveals Texans want tougher action on charges

Respondents in a state-wide survey were overwhelmingly in favor of mandatory jail sentences and driver license suspension for drunk drivers, a chemical test law to determine DWI guilt, and for increasing the penalty for possession of LSD.

The survey was made by Don Cates, attorney for Texas Alcohol Narcotics Education (TANE).

Those responding to the survey were also in favor of the "no-knock" bill which would authorize peace officers to break any door or window without giving notice when armed with proper warrants. The question on which respondents were most evenly divided was on lowering the penalty for first offense possession of marijuana. There were 1,043 in favor of lowering the penalty, and 1,386 against.

Survey questionnaires were mailed to 71,000 people across the state. Responses totaled 2,538.

Results were: Senate Bill 68, which authorized the use of chemical tests of blood, etc., to determine the intoxication of the driver, for, 2,-

TANE is a non-profit organization dedicated to preventing alcohol and drug problems through education. Part of the organization's function is a legislative information service, which Cates heads. Other programs include publishing books, production of audio visual aids, an annual Drug Education Workshop co-sponsored by Baylor University, a 150-man speakers bureau, research, speakers for public schools, teacher inservice training workshops, drug abuse seminars in schools and churches, a free film lending library, and public information service which includes free information on drug abuse to students.

Active since 1935, TANE is supported financially by Texas churches of 19 different denominations, individual contributions, businesses, and sale of materials.

426-3949 in Hondo, we will be happy to set up an appointment."

Times have changed and these changes have brought about new thinking when it comes to determining if a family should be given children. "Finances, although still important, are no longer the overriding factor," Mrs. Lawrence says.

"We look at a family and judge the amount of love and warmth they can give a child. Family life receives close examination—is it stable? how do the parents and their own children get along now? how would the new child fit into this family life? what special problems might be encountered?—all of these questions are considered. But adoption is not limited to married couples only. Single or widowed persons also will be considered in special cases."

Mrs. Lawrence is headquartered in Hondo at the County Courthouse. She moved here from Austin in June 1970 after completing her Master's degree at the University of Texas Graduate School of Social Work. She had worked for the Department in Seguin two years before attending school.

Her region includes some 15 counties and she has three adoption workers in San Antonio where her sub-office is located. However, children are not placed in this area alone. Her office is in constant communication with adoption agencies throughout the State and Nation in an attempt to place the children carried on the list. Only recently a young brother and sister in San Antonio were placed with a family in Indiana.

"It is extremely rewarding work," she says. "To be able to take a lonely child and place him in a home where people are eager to love him has to bring on the most wonderful feeling in the world to anyone."

Anyone who has thought of adopting or has questions about adoptions should contact the Adoption Office in the Medina County Courthouse, or call 426-3949. A visit or a call just might bring a lifetime of happiness into your home and into the heart of some lonely youngster.

FOOTBALL DATA COMING UP

Several coaches in District 28-AA have come up with a novel summer job that will benefit them (they hope) as well as the district football teams and fans.

They are publishing a book titled 28-AA Football 1971, which will include stories, statistics and side-notes on all eight teams. All included will be pictures of three top players on each team.

Assistant Coach Ralph Harris of Devine heads the group working on the book by selling ads and gathering stories and pictures. He says they also plan a coaches poll on the standings.

I understand that Hondo Owls to be pictured are seniors John Howard, Tom Hill and Kurt Leinweber.

The book will appear on the scene just prior to the opening of workouts in August and will be distributed by the advertisers.

Working with Harris on the project are Assistant Coach Paul Jette, Devine; Head Coach Frank Trevino, Pearsall; Head Coach Dick Lowery, Carrizo Springs; and Head Coach Tom Walker, Cotulla.

Cases cleared from docket

Nearly 150 cases, some dating back to January, 1965, were cleared from the county court docket Friday.

County Judge Jerome Decker dismissed the cases on motion of County Attorney Frank X. Vance.

Child desertion cases accounted for the largest single number of dismissals; 50 of the 149 cases cleared from the docket.

Next largest number, 26, were assault cases followed by DWI, 22.

Other types of cases, and the number dismissed, were driving while license suspended, 5; carrying a pistol, 8; speeding, 12; wife desertion, furnishing beer to a minor, negligent homicide and disturbing the peace, 2 each and hot

checks, 7. Also driving without consent, improper left

Also driving without consent, improper left turn peace bond, no stop light, failure to yield, desertion, carrying knuckles, harassing over the telephone, no reflectors, carrying a knife and running a stop sign, one each.

Most child desertion cases were dismissed because the families had been reunited Judge Decker said. Other cases were dismissed for various reasons:

The arresting officer is no longer available, defendants have left the state, the defendant has died, complaining witnesses are no longer available, and cases have gone to the grand jury.

Wallet found 9 years later

Donald Scott, Jr. of D' Hanis has the wallet he lost nine years ago at the Park Theater in Hondo.

Workmen found the wallet last week while removing chairs from the Avenue M building where the theater has been closed for several years.

Owner Ray Jennings opened the wallet and found a one-dollar bill, two corroded nickles, 1960 and 1962 hunting licenses bearing the name of Donald Scott, and a piece of paper with the phone numbers of a favorite aunt and his grandmother. The license said Donald was 4-feet, 9 inches tall and weighed 65 lbs.

Jennings called Donald's mother, Mrs. Pauline Scott, and returned the wallet.

94 attend Nixon-Wilson reunion at Hondo park

Ninety-four persons were present for the annual Nixon-Wilson reunion, which was held at Hondo City Park on June 5. Descendants came from: San Antonio, Rockport,

Pearsall, McLean, Leming, Overton, San Marcos, Houston, Belton, Uvalde, Salado, Yancey, Castroville and Hondo.

Traveling the farthest distance were Mrs. Irma Stephens Johnson and her husband L. B. Johnson, of Lawton Oklahoma and Richie Brown, grandson of Mrs. Roy Hartman and great-grandson of Mrs. Mary Nixon Melton. Richie is from Bossier City, La.

The oldest person present was Samuel A. Darby, 91 of San Antonio, who is the husband of Velma Wilson Darby. Lisa Lynn Haass, the 11-month old daughter of the R. L. Haasses of Hondo, was the youngest present. Lisa is a great-granddaughter of Mrs. Mary Nixon Melton.

Five family groups were represented: descendants of John Phillip Nixon and Dora Wilson Nixon; of Viola Nixon Wilson and Garrett Wilson; of Patrick Ireland Nixon and Rennie Andrews Nixon; of A. d. a Turner Wilson and Sidney Wilson and of Maggie Nixon Stephens and W. B. Stephens.

A basket lunch was served at noon. In the afternoon Mrs. Robert Faseler played a portable organ, while the group joined in singing of old, familiar hymns.

89th birthday party held

Mr. and Mrs. Harry Haby and Mr. and Mrs. Marvin Salzman honored their mother Mrs. Lizzie Haby, with a birthday party on her 89th birthday, Sunday afternoon May 30, at Brown's Nursing Home.

Several guests and all patients and employees were served birthday cake and punch.

MRS. KENNETH A. HABY

Pair united

Miss Cynthia Ann Keller became the bride of Kenneth A. Haby on May 22 at St. Louis Catholic Church in Castroville. Fr. Larry Stuebben performed the ceremony.

Parents of the couple are Mr. and Mrs. Daniel E. Keller of Rio Medina and Mr. and Mrs. Harvey A. Haby of San Antonio.

Given in marriage by her father, the bride chose a gown of candlelight organza with Peau d'ange lace accented with clusters of pearls. The chapel train was held at the waistline by a flat bow accented with lace and pearls. A crown of lace and pearls held her full silk veil of illusion. The bridal bouquet was fashioned of Tailsman roses and butterfly orchids.

Joy Beth Keeble of Corpus

Christi was maid of honor; Mrs. Carroll T. Keller of Rio Medina was matron of honor. Bridesmaids were Mrs. Don Haby of San Antonio, Miss Dancy Menk of Hondo, and Miss Vickie Biediger of Dunlay. Shelly Heyen of Hondo was flower girl.

Don Haby of San Antonio served his brother as best man. Groomsmen were Carroll T. Keller, Dale Holzhaus, David Zimmerman and Kyle Patton. Glenford Boehme, DeWane Tschirhart, Clay Heyen and Mike White were ushers.

The newlyweds were honored with a reception at Koenig Park Hall immediately following the ceremony.

They are at home in San Antonio following a wedding trip to Mexico City and Acapulco.

Quihi by Mrs. Jack Sharp

C-130B IS VIETNAM WORKHORSE

Alamo Reserve Wing C-130B's To Fly Low Level Missions

KELLY AFB--Vietnam is a long way from Central and South Texas but during July and August local residents will be able to look upward daily

and get a glimpse of a bona-fide Vietnam hero.

C-130B aircraft, the workhorse of the Vietnam conflict, will fly over the area daily in these two months, crewed by men of the 922nd Tactical Air Lift Group, part of the famed 433rd Alamo Reserve Wing at

Kelly AFB, San Antonio. The seven day a week program will include both single ship missions and formation flights.

Low level missions, with day flights being as low as 500 feet and night missions going up to 1000 feet, are necessary for the 922nd crews to achieve combat readiness to deploy to any part of the world in case of an emergency.

Missions will cover an area bounded on the north by Marble Falls, west to Mason, southwest to Junction, south to Uvalde and Carrizo Springs, east to Pearsall, northeast to Pleasanton and back to Kelly AFB.

Known as the Hercules, or "Herkey" for short, the C-130B aircraft has proved to be the "Jack of all trades" in Vietnam. Built by Lockheed the ship has done everything that can be done in a combat zone--dropped flares, paratroopers, supplies; airlifted troops and refugees; served as gunships and

Lutheran ladies to meet Tuesday

The following circles of St. Paul ALCW will meet this coming week:

The Elizabeth will meet Tuesday at 8 p.m. in the home of Mrs. Milton Nietenhoefer. Mrs. Edwin Bohmfalk will lead the Bible study and Mrs. Arnold Nietenhoefer will present the offering meditation.

The Ruth Circle will meet in the home of Mrs. Leroy Miller, Wednesday at 9:30 a.m. Mrs. Chester Schmidt will be Bible Study leader.

Credit Bureau wins awards

Mrs. George Pletz has been given the Executive Achievement Award of the Southern Region of Associated Credit Bureaus. It was presented to her at the recent 1971 Consumer Credit Conference at Corpus Christi, Texas.

She has also recently received a Merit Award for the Credit Bureau of Medina County. These awards may be seen at the office in Devine.

Parents! Know the Drug Threat

The child you save may be your own!

By

Jerry Williamson
Hondo
Chief of Police

Today's Subject: More Mind-Affecting Drugs Now in Use

To classify any one group of drugs as "mind-affecting" would be a truth, but only half true, because this would lead one to believe that some drugs in use do NOT affect the mind. The hallucinogenics, (those which cause "trips" of the mind), are generally referred to as mind-affecting, but in reality all drugs have their effect on the mind whether direct or indirectly.

Some of the other drugs we have not mentioned thus far are Mescaline, Peyote, Psilocybin, DMT, STP and Morning Glory Seeds.

Mescaline is hallucinogenic in nature, a chemical found in the buttons of certain small cactus plants -- peyote or mescal -- and these are also available illegally in powder and liquid form. The effects, for the most part milder than from LSD, often last 10 to 12 hours. Being bitter to the taste it is often mixed with a drink to make it go down easier. American Indians have used this drug in religious rights for hundreds of years, so its use is not what could be termed new.

Peyote itself, coming from cactus, is a milder form of Mescaline. Sometimes it is referred to as "the button", "cactus", or just the letter "P". To this day it is still used in sacrament rites by the Native American Indian Church.

Psilocybin is from the Mexican mushroom and usually comes in crystal, powder or liquid form. Influence of the mind lasts from 2 to 6 hours generally and effects are similar to those of Mescaline.

DMT, (dimethyltryptamine), causes effects similar to LSD, when taken in large doses. Reaction comes quickly and the effects last an hour or two. It is made synthetically and is a natural component of seeds from plants growing in the West Indies and South America. For hundreds of years natives have used this drug by sniffing a powder from the seeds.

STP, (also known as DOM), is relatively new on the drug scene. It is a synthetic chemical related to Mescaline and the Amphetamines. Reportedly it is very mind-distorting, but not nearly so powerful as LSD.

Morning Glory Seeds of some varieties have an active principle closely related to LSD, but much less potent. The seeds are most usually chewed or made into a tea.

Then there is the "thing" called "68"; like banana peel, "68" or, as it is sometimes called "sex juice", may be a hoax so say the specialists of the American Pharmaceutical Association. Users have reported that it produces wild, short trips as compared to LSD or STP. There are conflicting reports on the chemical make-up and over all effects. Our Food and Drug Administration says that "68" is simply oil of peppermint.

So, in summary today, you may ask yourself why it is important to know all of these minute details about all of the drugs we have discussed. Much of the information you may never have an occasion to use -- BUT, if you do have occasion it is much better to know facts than fiction, hearsay and the like.

The major point of this entire series is to better understand the drug misuse problem and to do this we must know basic knowledge and basic facts. Only through truth about the drug problem can we hope to combat it. Only through open-mindedness can we save our children from the horrors of drug misuse. WE are the adults -- the solution to the problem is up to US -- this is OUR responsibility!

Be with me next week, won't you?

Barbara Tondre to teach English in German school

Barbara Tondre, daughter of the V. L. Tondres of Castroville, has been selected by the American Association of Teachers of German in Philadelphia, Pa., as one of 25 German teachers from the US who will be spending a year in Germany, teaching English as a second language in German-operated schools.
The program is sponsored jointly by the AATG and the German province of Nordrhein-Westfalen, in North Central Germany. The objective of the program is to introduce American teachers of German and English to the German schools. Most of the English teachers in German schools are Oxford English scholars.
Teachers selected for the program anticipate the necessity of adapting both to a different school system, and to the varying customs of another country. Since students in Germany begin foreign language study at the age of ten, there is always a great demand for proficient teachers in this field of study.
The program provides students a rare opportunity as the American teacher works within the German school system, also providing an opportunity for the American to become more deeply involved in the German culture by living and working in the province.
Moreover, the exchange of ideas and cultural traditions between peoples of the two nations brings hope of greater understanding and appreciation of each way of life.
Participants in the program will leave from the east coast in early August. Upon their arrival in Germany, they will spend two weeks in Bonn, the capital of West Germany. Here, they will undergo an intense briefing period before the German school year begins. The German school year runs from mid-August to July 1. Students attend classes six days a week. Barbara's assignment will be in Attendom, a small town near Cologne.

Miss Rodriguez on honor roll
Mary L. Rodriguez, daughter of Mr. and Mrs. Nicolas Rodriguez of D'Hanis, is among the 41 students at Southwest Texas Junior College, Uvalde, to make the Dean's Honor Roll.
In order to make the honor roll, a student must be enrolled in at least 15 semester hours and achieve a grade point average of 3.6 or higher on the four-point system (A is 4 points).
The forty-one were selected from a total of 820 full time students.

Meteorological records at the Rio Grande Plains Research and Demonstration Station in Crystal City tell a sad story. Evaporation from free water surface for the month of May was 10.29 inches. Total evaporation for the first four months of 1971 show a total of 37.69 inches.

Rainfall is 3.15 inches short for the month of May; 6.73 inches short for the year 1971; and 10.66 inches short

since Oct. 1, 1970. We have gone 8 months and 8 days without adequate rainfall. Large areas of Southwest Texas and South Central Texas are parched.

Even the talk of cloud seeding is discouraging. It is the opinion of many that rain this late will have little effect even on pastures. High temperature and high evaporation losses in June, July and August has in the past made even large rains ineffective.

Rev. Lowry transferred

The Rev. M. D. (Dick) Lowry, pastor of the United Methodist Church of Hondo the

past three years, has transferred to Hunt.

He preached his first sermon in Hunt last Sunday and several Hondo residents were in the audience.

Point Theatre comedy starts

Harrison Ewing of San Antonio has been assigned the role of Grandpa Vanderhof, the merry old zany who rules the crackpot roost of the Sycamore family in "You Can't Take It With You", when the Point Theatre presents the Kaufman and Hart comedy hit for ten performances that began Wednesday, June 9.

Performances are scheduled Wednesday through Sunday with curtain time at 8:30 p.m. Reservations for the plays may be made by calling the HCAF office 367-5710. Admission prices are \$1.00 for students and \$2.00 for adults.

HHS students study in Waco

Two Hondo High School band students, Debra Sue Delony and Linda Gale Owens, are attending the Fourteenth Annual Summer Music Seminar sponsored by Baylor University School of Music, in Waco.

Debra and Linda will attend classes in music appreciation, theory, composition, conducting and technique.

The grand finale of the ten day seminar will be a concert in Waco Hall with parents of participating students invited to attend.

D'Hanis cheerleaders

Cheerleaders for D'Hanis High School Cowboys for the 1971-72 school year are Bette Zinsmeyer, head cheerleader, Madelyn Fohn, Debbie Cheney

and Gail Rothe. The girls plan to attend cheerleader camp in Kerrville the week of July 12-16.

James Delony

Gordon Flory

Hondoans are students at Technical Institute

Gordon A. Flory and James F. Delony are students at the James Connally Campus of Texas State Technical Institute in Waco.

Flory is majoring in combination welding and Delony is studying building and construction technology.

The James Connally Campus is the central facility of the multi-campus operation of Texas State Technical Institute.

The Waco campus is in its sixth year of operation and offers 57 different courses of study through one and two-year programs, and advanced study.

Other campuses are: the Rio Grande Campus in Harlingen, the state's only bilingual technical school; the Mid-

Continent Campus in Amarillo; and the Sweetwater Facility in Sweetwater.

State Tech is the state's first technical school to grant the Bachelor of Technical Education diploma and the Bachelor of Technology diploma.

The two diplomas are available only to students who have completed advanced study in technical teacher education of advanced technology.

The technical school has over one million feet of floor space designated for laboratories and classrooms. The first permanent structure to be built on the campus since the deactivated Air Force Base was acquired by the state is the J.H. Kuitgen Automotive Technology Center. The one million dollar facility features a "clean shop" type of instruction in fully air conditioned labs and classrooms.

Future plans call for construction of the W.R. Poage Land Technology Center, a three and one half million dollar facility on the north side of the 2200-acre campus.

Boy Scouts

All officers of the Alamo Area Council, Boy Scouts of America, comprised of 15 Southwest Texas counties and communities including Hondo and Medina County, were re-elected at the annual board meeting in San Antonio this past week.

During the meeting, it was revealed there are 1,000 more boys and 40 additional units enrolled than the same number at this time last year.

Also during the program, the Honor Medal for heroism—highest which may be awarded a Scout—was bestowed on a Marion Scout for saving the life of a colleague. The medal was authorized by the National Court of Honor.

Receiving the medal was Larry Karer, 15, who is credited with saving Alvoid Hartfield, 12, from drowning in the Guadalupe River near Seguin last Oct. 10. His parents, Mr. and Mrs. Bert Karer, and grandparents, Mr. and Mrs. Philip Karer, attended.

In a report for the past year, it was noted a new road and entrance structure were completed at Bear Creek Scout Reservation, a training pavilion was built at McGinnis Scout Park, a new Service Center completed and the Sustaining Membership Enrollment need of \$45,275 was reached.

It also was announced a record number of Scouts will go to the two summer camps operated in Kerr County by the council, that 250 Scouts and leaders will go to Philmont Scout Ranch, Cimarron, New Mexico, and 11 Scouts and 3 leaders will attend the World Jamboree of Scouting near Tokyo this summer.

This week

That's all she wrote

by Edna McDade

Abundant rains continue to keep this area greener than the Emerald Isle itself — Fr. CAROLAN please note. An early morning walk led me along a wooded section which I call "The Forest Primeval" and I spent a delightful hour looking, listening, inhaling the fragrance of new-mown clover and remembering to be grateful for the opportunity.

These experiences were among my rewards: Five Mallard ducks, startled from their morning swim, took off in flight their green heads glistening in the bright sun. Two squirrels chattered in protest of my invasion of their privacy. A cottontail rabbit bounced out of the bushes and bunny-hopped elsewhere.

Pheasants in the tall grass exchanged greetings, preferring to be heard rather than seen. Overhead, birds held matutinal services with songs appropriate to the occasion.

A pre-schooler like Walton, carrying a cane pole much too big, stopped when I greeted him and confided that he was "gonna try to sneak up on a BIG ole bluegill that keeps gittin' away every time".

If such be the rewards of retirement, who could ask for anything more?

Letters to the Editor, in recent AH issues, show that our readers are getting involved, in issues that involve our common concern, and taking time to state their pros and cons.

The courage of conviction and a willingness to stand up and be counted are two ingredients necessary to lighten the lump of misunderstanding that can become mighty burdensome. Any resemblance to my own brand of philosophy is purely intentional.

ERNEST, who will be three next Jan. 23, is the only son of EMILIO and ESPERANZA QUINTANILLA of Hondo and the only grandson of EDWARD and RAMONA YBARRA. His daddy works at Lackland AFB.

When I met Ernest a few weeks ago, he told me that all he wants to do is to ride a motorcycle and play football and baseball which might indicate he'll be a big wheel in athletics some day.

I have bragged so much on the beauty of spring here that you'll be thinking I'm on the local C of C payroll! (Not so, more's the pity!)

One evergreen I have not seen is the oleander which grows so abundantly at home. I have stopped often to admire the pink ones that seem so just-right to accent the grey and white of the HARVEY and MARY RENKEN home.

With the recent addition of a roofed patio in their big back yard, the Renkens will be equipped to extend even more of their gracious hospitality to their many friends.

A few factories hereabout are now using the innovative 4-day week, allowing workers a long 3-day weekend, stretched to four on the major holidays. Management reports claim from 20 to 40 per cent production increase and some officials foresee an eventual 36 or 32 hour week.

Down, boys and girls at the Anvil Herald. This can't possibly include newspapers whose subscribers would prefer to have today's news yesterday if possible!

With 74 HHS graduates setting out to help conquer it, "Move over, World, here we come!" takes on new significance for our community.

Although I do not know many of the boys and girls, I studied each picture with a feeling of pride in their achievement, their clear young eyes, and I am mindful of the "long, long thoughts" that will help determine their future.

Our graduates can claim "God's country" as home but they will also find a lot more of the same country needing their help to keep it so. I wish them well.

Highsmith named trapper

Claud Highsmith of D'Han-
is has been named trapper for
the Wolf Club and Medina
County.

The job is a joint effort by
the County and the Wolf
Club to eliminate predatory
animals. Funds come from
both sources.

"The funds are needed now
for the Wolf Club's portion,"
said Harry Filleman of the
Hondo Chamber of Commerce
which is a collection point
for this effort.

"Without contributions
from county ranchers we can-
not pay the trapper," Fille-
man said. "So drop yours by
today."

Highsmith's telephone
number is 363-7352.

Pinto 2-Door Sedan

Maverick 2-Door Sedan

FORD

\$1919*
Pinto 2 door
\$66 less than VW 113

The little carefree car. Pinto is sized small, like the economy import, but it's bigger on value. And price is only the beginning. Pinto calls for only half as many oil changes as VW. One-sixth the chassis lube. So easy to service that you can do most routine maintenance yourself. And Pinto is bigger on performance. It has a 75-hp engine that has averaged over 25 mpg in simulated city/suburban driving. Sports-car type rack-and-pinion steering. Wider stance and lower silhouette.

\$2175*
Maverick 2 door
\$176 less than Nova 2 door

The Simple Machine. Maverick's price makes it simpler to own than Nova. But that's not the only reason we call it the Simple Machine. Maverick's simple to drive and park because of its shorter wheelbase and smaller turning circle. Simple to service because it's been designed that way. Maverick offers a 4-door sedan for a low price of \$2235* (\$145** less than Nova 4 door). Or choose the sporty Grabber model. A choice of an economical V-8 and three thrifty Sixes.

*Ford's suggested retail price for Pinto and Maverick. However, the models shown are equipped with accent group (Pinto \$60; Maverick \$52) and white sidewall tires (\$29). Destination charges, dealer preparation charges (if any), state and local taxes are extra.

**Comparison based on manufacturers' suggested retail prices for closest comparable body styles of lowest priced models, comparably equipped.
